- **Cone Construction:** Black Polycarbonate
- **Mounting Depth:** 1 15/16" (in.)
- **Quantity Per Package:** 2 Speakers - (1 pair)
- **Weather Resistant:** Yes
- **OEM Size Match:** Yes

J&M's ROKKER XXR series 5.17" speakers are designed as exact size component/replacements for the stock Honda speakers as installed on the 2018 & later Honda Gold Wing, for the front or rear position.

Spec'd at 3.5 ohms impedance and 290 watts max power (200w RMS - 91db sensitivity), these speakers provide the ultimate in raw audio power for the new Wing.

Waterproof polycarbonate driver cone with super-rigid metal basket.

Lightweight but powerful Neodymium magnet structure.

Mounting hole pattern and spade electrical connections are exactly the same as the factory specification, this is a total plug-and-play no-modification solution.

These are THE most powerful speakers you can buy for your Gold Wing and they will perform extremely well when used with a medium to high-powered accessory amplifier.

Packaged as 2 individual speakers (1 pair) per kit.

Made in Japan.

To Install in Front Fairing or Rear/Pod Positions

Using the Honda tech manual as a reference, remove the inner fairing/rear trunk panels, housings and components to expose the front side of the fairing or rear speakers.

Remove the attachment screws and unplug the speaker wires from the back side.

Plug in the new ROKKER XXR speakers and secure the new speakers back into the stock mounting position.

Thank you for the confidence you have shown in J&M Corporation by purchasing one of our innovative products.
