Product Description

J&M's ROKKER™ XT series ---- Finally,, add real sound improvement to the rear speaker pods on your Ultra ,,,,

This new three-way high-performance ROKKER XT speaker set has been designed specifically for the rear pod position on the 1998-2013 Harley® Ultra.

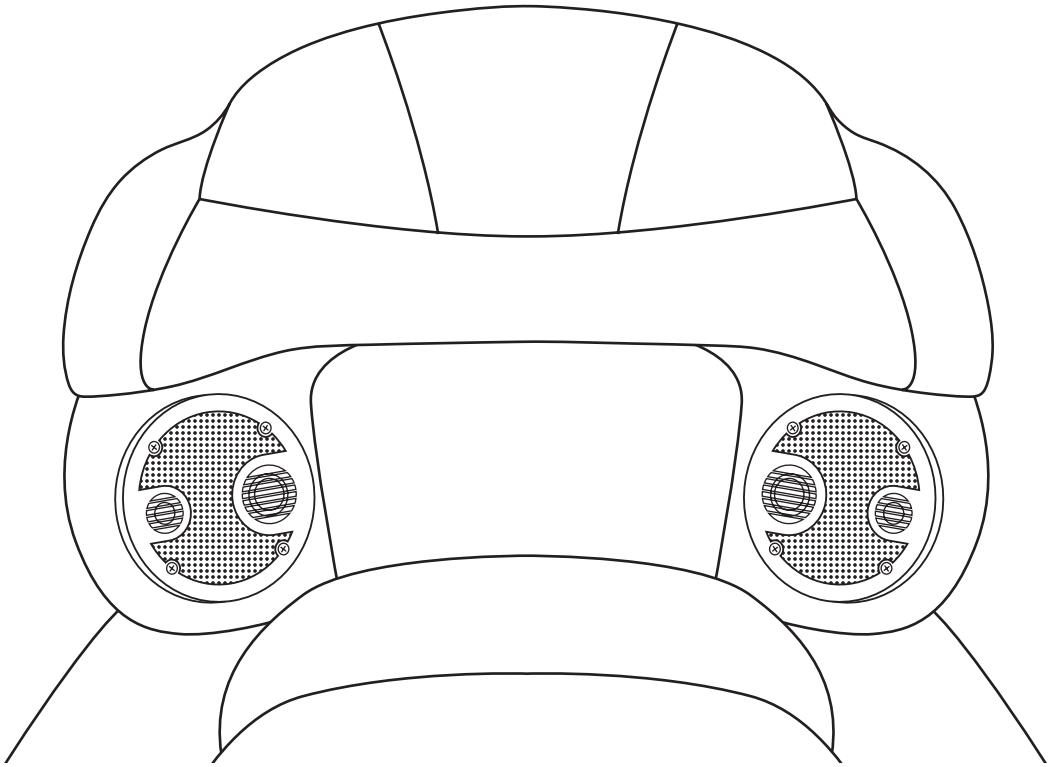
Spec'd at 2 ohms impedance and 140+ watts max power, these new speakers provide superior bass response, along with an extended mid/high frequency range.

They feature a waterproof injection-molded polycarbonate woofer cone, high-flux strength but light-weight Neodymium magnet, high efficiency voice coil, and the latest design grillwork with mounted black-mylar tweeter and midrange drivers, with a second set of paintable grills also included.

Their mounting hole pattern and spade electrical connections are exactly the same as the factory specification, this is a total plug-and-play solution complete with easy to follow installation instructions.

These are THE most efficient speakers you can buy for your Harley and they will perform extremely well with the stock Harley HK radio system, while still durable enough to handle a high-powered accessory amplifier should one be installed.

You won't be disappointed.



Installation and Instructions

1. Remove the 4 screws from each factory rear speaker grill.

2. Remove each factory grill/speaker and unplug them from the wiring harness.

3. Plug-in each new J&M speaker/grill assembly and install them into the rear housings using the longer screws provided. See diagram for proper mounting position of both speaker/grill assemblies.
